

Main.java		Output
<pre>1 public class Main { 2 public static void main(String[] args) { 3 System.out.println(3); 4 System.out.println(358); 5 System.out.println(50000); 6 } 7 } 8</pre>	<div>Run</div>	<pre>3 358 50000 === Code Execution Successful ===</pre>

Explanation:

I'm telling Java to print numbers, and after each one, go to the next line — just like writing down a list with each item on a separate row.
