Main.java

Share Run

Output

```java
public class Main {
    public static void main(String[] args) {
        int x = 5;
        int y = 6;
        System.out.println(x + y); // Print the value of x + y
    }
}
```

```
11

=== Code Execution Successful ===
```

Explanation:

I made two boxes: one with " 5" and one with " 6".

I told Java to add them together and show the total.

Java adds "5 + 6" and prints "11".
