Main.java

Share Run

Output

```java
1  public class Main {
2      public static void main(String[] args) {
3          String name = "John";
4          System.out.println(name);
5      }
6  }
7
8
```

```
John

=== Code Execution Successful ===
```

Explanation:

I created a little box called name, put the word "John" inside it, and then told Java to show whatever is inside that box.
